

2 Islands News

1009

Sunday 9th August 2009. You probably know the sad story of the New Top Skipper event, for the first time to have been held as a Laser Match Racing Event. I didn't oversleep but I ended up reading the clock wrong by an hour, and after racing to get to the lake @ 10:20, ie. Like 50 mins later than I should have been, I found only two or three guys standing chatting, and was told because there was absolutely no wind, those that had turned out had decided to cancel the event and most had gone home. There is some good news though, Keith has set aside another day to run the event to decide who will be the first winner of this revised Trophy award. Look out for Keith's E_Mail.

Sunday 16th August 2009. Not really a lot to say about today, though we were joined again by David Alston who joined us for the Rainbow trophy. His results have been excluded from the table below as he is not qualified to compete for a club trophy.

Sunday 22nd August 2009. Another of our 'Friendlies' with Watermead, and this time with Oxford club. The results for this meeting are in PDF, which I cannot insert into this document so I have attached them at the end. I was not there so cannot add any more narrative.

Sunday 30th August 2009. This week saw the penultimate round of the new Commodores Cup, and saw Paddy consolidating his position at the top, having won 4 of the 5 rounds so far. Can he be overtaken?

Sunday 6th September 2009. Another day at Watermead, to avoid clashing with the Fishermen during their annual charity event. This time the friendly was between just Watermead and 2 Islands, and was I understand, a good days sailing. The results this time were in Excel and did not easily transcribe into PDF, so I manually converted them to my usual Word file and I show them here below.

Sunday 13th September 2009.

As the Summer passes into Autumn the multi round series come to a close. Despite Keith winning 8 out of 9 races (that new Cockatoo of his goes like a bomb) Geoff's position in the overall results could not be challenged. Well done Geoff! And well done to Mike for a well deserved 2nd place both today and in the series.

The days sailing was not without thrills and spills, with the wind from the outset demanding a change to No 2 sails and at times hinting no 3's might be more suitable. Fred accidentally changed to No 3's after the first race but could never really challenge the No 2's. Paul was sailing his new Cockatoo for the first time and when he changed to No 2's he had to retire when the Kicking strap fixing came away from the mast. Vic failed to complete the 1st race and had not brought his No 2's with him.

Some of you have noticed the current program is nearly complete but worry not, Keith has a new program almost ready to publish, and when it is launched there will be information on the AGM and the Dinner. I can't say more at the moment but keep your eyes open!

Have you looked at the Website recently? If you have, did you see the Pictures/Article about the Chinese boats sent to me by Ian Holt, an ex member, for those that don't know of him, that will be rejoining us so he can sail here when he makes one of his infrequent short visits back to the UK.
